Recommandation Letter

I am writing to offer my strongest recommendation for Mr Saifeddin Matoui for your scholarship program.

I have known Saifeddin as one of my brightest and highly skilled students in class, having a positive impact on his classmates and his environment in general.

Saifeddin has left the impression of a hard working student who is always willing to accomplish his missions in the best way possible.

Along with his academic brilliance, he has proven himself to be a great contributor on campus. Being a member of a club, a chairman of another, managing multiple responsibilities at a time, Saifeddin has become well known for the huge value he provides, and made him a great leader.

He was providing knowledge in technology field for other students through online and offline trainings within extra curricular activities.

Saifeddin has my highest recommendation for this program. His curiosity combined with his willingness to take risks leads me to believe there will be no limits for his growth and achievements.

Don't hesitate to reach out to me for any further information.
